## Summary

### Summary

Computer Science graduate with experience in programming and software development. Detail-oriented and passionate about writing clean, efficient code. Seeking a challenging role to drive innovation, leveraging strong problem-solving skills and adaptability. Quick learner with exceptional interpersonal skills and the ability to work independently.

## Experience

### CKINDUST PVT LTD - Information technology engineer

- System administration, new design software analysis and implementation, Daily Production plan development

## Publications

### Publication

- "Detection of Inauthentic Accounts on Twitter"

[03/2023] – [08/2023]

Developed a system using Python and machine learning algorithms to identify fake and bot accounts on Twitter. Employed various models, including K-NN, to analyze features like tweets, followers, and followings.

## Projects

### UI/UX Design for Meal Kit Subscription App

Project Duration: [06/2022 – 11/2022]

- Conducted an intensive case study on a meal subscription app/website.
- Designed user interfaces and user experiences using Figma.

### Handwritten Digit Recognition

Project Duration: [03/2022 – 04/2022]

- Developed a system to recognize handwritten digits using Python.
- Implemented various machine learning algorithms, including K-Nearest Neighbors (K-NN), for accurate digit recognition.

## Education

06/2023

### Reva University

### B.Tech in Computer Science and Information Technology

03/2019

### Sri Vijay Vidyalaya

### Higher Secondary

## Skills

- **Programming Languages:** Python, Java
- **Technical Skills:** Planning and Coordination, Active Listening
- **Soft Skills:** Leadership, Adaptability, Self-Motivation
- **Professional Traits:** Willingness to Learn

## Certifications

### Certifications & Workshops

- **Cyber Security Basics** – Infosys, Online Certification, [06-2021] Covered foundational concepts of cyber security.
- **Full Stack Deployment Workshop** – Betsol, One-day workshop focused on end-to-end deployment of a To-Do project.
- **Full Stack Web Development** – Internshala, [02-2022] Completed a course on front-end and back-end development fundamentals.

## Languages

### Languages

- **English:** Full Professional Proficiency
- **Tamil:** Native/Bilingual Proficiency
- **Kannada:** Professional Working Proficiency
- **Telugu:** Full Professional Proficiency
